

PART V

Total Workforce Summary

PART V contains summary information about the entire DOT workforce, not just permanent employees.

This part includes tables and charts that reflect the number of employees by Administration and by appointment type, i.e., permanent or temporary. We also look at total employment by work tour, i.e., full-time, part-time, intermittent, or job sharer.

FY 2003

This chart reflects the relative size of each DOT administration. All employees are included.
